Outline

General

Packages

```
(setq use-package-always-ensure t)

(use-package auto-compile
  :config (auto-compile-on-load-mode))

(setq load-prefer-newer t)
```

Change some defaults

```
(fset 'yes-or-no-p 'y-or-n-p) ; simpler

(delete-selection-mode t) ; delete selection
(transient-mark-mode t)   ; delete selection on type?

(global-auto-revert-mode 1) ; reload buffer
(global-set-key (kbd "<f5>") 'revert-buffer)
```

Look

Interface

```
(setq inhibit-startup-message t)

(set-frame-font "Ubuntu Mono-14")

(tool-bar-mode    -1)
(menu-bar-mode    -1)
(scroll-bar-mode -1)

(setq sentence-end-double-space nil)

(global-prettify-symbols-mode t)
```

Line numbers, highlight

```
(global-hl-line-mode t)
```

Org mode

Org common

```
(setq org-structure-template-alist
'(("a" . "export ascii\n")
  ("c" . "center\n")
  ("C" . "comment\n")
  ("e" . "example\n")
  ("E" . "export")
  ("h" . "export html\n")
  ("l" . "export latex\n")
  ("q" . "quote\n")
  ("s" . "src")
  ("v" . "verse\n")))
```

Org bullets

```
(use-package org
  :hook ((org-mode . visual-line-mode)
```

Programming

.editorconfig

```
(use-package editorconfig
  :ensure t
  :config
  (editorconfig-mode 1))
```

Company

```
(use-package company
  :hook (prog-mode . company-mode)
  :config
  (setq company-idle-delay 0)
  (setq company-dabbrev-downcase 0)
  (setq company-minimum-prefix-length 1)
  (setq company-tooltip-align-annotations t))

(with-eval-after-load 'company
```

Git

EDiff

```
(use-package ediff
  :config
  (setq ediff-window-setup-function 'ediff-setup-windows-pla
  (setq-default ediff-highlight-all-diffs 'nil)
  (setq ediff-diff-options "-w"))
```

Magit

```
(use-package magit
  :config
  (setq magit-push-always-verify nil)
  (setq git-commit-summary-max-length 50)
  (setq magit-completing-read-function 'ivy-completing-read)
  :bind
  ("C-x g s" . magit-status)
  ("C-x g x" . magit-checkout)
```
